Dear Sir/Madam,

I am writing to apply for web developer position which I came to know through job portal of yours. As requested, I am enclosing a completed job application, my resume, and certificate of work experience.

The opportunity presented in your company is very interesting which will help me to better on design of front end, and I believe that my strong technical experience and education will make me a very competitive candidate for this position. The key strengths that I possess for success in this position include:

- I have successfully designed, developed, and supported Hospital Information System (ERP) using Sage ERP 300.
- I have experience in working with Image processing in Fraunhofer IGD.
- I have hands on experience in the development of Smart Agriculture Apps using PHP and Angular in Lone Systems GmbH.
- And I also have academic experience with Javascript and Android from projects offered in TU Darmstadt.
- I strive for continued excellence.
- I provide exceptional contributions to customer service for all customers.

With a BE degree in Computer Programming, and currently pursuing my Masters in Distributed Software System from TU Darmstadt. I have a full understanding of the full lifecycle of a software development project. I also have experience in learning and excelling at new technologies as needed. Currently am working on my master thesis where I need to develop a web based profiling tool for an existing software verification application called KeY which is going to end on mid of December 2019.

Please see my resume for additional information on my experience.

I can be reached anytime via email at [shiva.june16@gmail.com](mailto:shiva.june16@gmail.com) or my cell phone, (+49)17636968063.

Thank you for your time and consideration. I look forward to speaking with you about this employment opportunity.

Kind regards,  
Shivaraj Bheemsha Behere
